The Seven Principles of ISO 26000				
5.1	1	Our organization is accountable for its impacts on society, the economy and the environment. Which activities does your organization undertake to give substance to this principle?	<p>Beo Trekwerk bv and Beo Trekwerk Staal bv are accountable for its impact on society, the economy and the environment. We are accountable for:</p> <ul style="list-style-type: none"> √ The impacts of our decisions and activities to society, the environment and the economy. In negative consequences especially; √ The actions taken to prevent repetition of negative impacts. <p>Beo Trekwerk bv and Beo Trekwerk Staal bv are accountable by being attentive to the effect of the product on people, planet and profit during product development and by producing products with a long service life. The synchrodisks, for example, have a life expectancy of > 30 years. Our philosophy is to create products with a long life time cycle thereby taxing the environment as little as possible. The customer profits too, because of the long time span in which a product needs to be replaced.</p> <p>We are focused on effective energy consumption. By making use of kinetic energy, the installation is able to recover it and reuse this energy for other energy use.</p> <p>Beo Trekwerk bv and Beo Trekwerk Staal bv are accountable by:</p> <ul style="list-style-type: none"> - Organizing customer meetings where people, planet & profit are agenda topics. - Our membership of industry-specific associations. VPT content and Oistat meetings in which public debates are central. - Our R & D department to increase product life cycle time and safety during use of the products. - Complying with SIL3 standards where employee safety is key. - Analyzing the effects of our operations unit on society, environment and economy. 5.2	2	Our organization is transparent about decisions and activities which have an impact on our environment. Which activities does your organization undertake to give substance to this principle?	<p>We are transparent about:</p> <ul style="list-style-type: none"> √ The purpose, nature and location of our activities; √ The identity of any controlling interest in the activity of our organization; √ The manner in which decisions are made, implemented and reviewed; √ The definition of the roles, responsibilities, accountabilities and authorities across the different functions in our organization; √ Who in our organization has which position in the context of decision making; √ Standards and criteria against which our organization evaluates its own performance relating to social responsibility; √ Our performance on relevant and significant issues of social responsibility; √ Our financial performance; √ Sources, amounts and application of funds; √ The known and likely impacts of our decisions and activities on our stakeholders, society, the economy and the environment; √ Our stakeholders and the criteria and procedures used to identify, select and engage them. <p>This information is:</p> <ul style="list-style-type: none"> √ Public and easily available; √ Understandable for our stakeholders; √ Timely, factual correct, clear and objective. <p>Beo Trekwerk bv and Beo Trekwerk Staal bv has a clear organizational structure in which all functions are hierarchically defined. This is complemented by clear agreements regarding consultation and responsibility. Responsibilities are defined in job descriptions.</p> <p>We focus on CSR (people planet, profit). For people, the safety and employability is important. Planet, our focus on production and energy consumption. Profit, focus on continuity, innovation and reputation. These points are continuous focal points during the product and development. The decisions we make contribute to a good ethical business and a financially healthy organization. This currently results in products which meet the requirements in these areas.</p> <p>During annual management meetings CSR performance is evaluated.</p>	ISO 26000 documents ISO 9001 documents

5.3	3	<p>Our organization behaves ethically. Which activities does your organization undertake to give substance to this principle?</p>	<p>Beo Trekwerk bv and Beo Trekwerk Staal bv strive to behave in an ethical manner and actively promote ethical behavior.</p> <p>We:</p> <ul style="list-style-type: none"> √ Identify and state core values and principles; √ Develop and use governance structures that help promote ethical behavior within the organization, in decision making and in interactions with others. √ Identify, adopt and apply standards of ethical behavior fitting the purpose and activities and consistent with the principles outlined in ISO 26000. √ Encourage and promote the compliance to these standards; √ Define and communicate the standards of ethical behavior expected from our governance structure, personnel, suppliers, contractors, owners and managers and particularly from those who have the opportunity, while preserving local cultural identity, to significantly influence the values, culture, integrity, strategy and operation of our organization and people acting on its behalf; √ Prevent or resolve conflicts of interest throughout the organization which could otherwise lead to unethical behavior; √ Establish and maintain oversight mechanisms and controls to monitor, support and enforce ethical behavior; √ Recognize and address situations where local laws and regulations either do not exist or conflict with ethical behavior; √ Adopt and apply internationally recognized standards of ethical behavior when conducting research with respect to people; √ respect the welfare of animals, when affecting their lives and existence, including by providing decent conditions for keeping, breeding, producing, transporting and using animals. <p>Beo Trekwerk bv and Beo Trekwerk Staal bv uses a code of conduct for its employees. These are included in the employee Code of Conduct which is internally published (intranet) and annually distributed;. This to encourage desirable ethical behavior.</p> <p>If employees detect unwanted behavior by their peers, they can be report this anonymously to their supervisor or to Human Resources. This is treated as an anonymous tip.</p> <p>Conflicts of interest on a job level is counteracted by concretely defined responsibilities and decision-making in the job profile. Nepotism is thus prevented.</p> <p>We communicate directly with so-called "toolbox" meetings at a departmental level. Relevant topics at that particular time are discussed, such as security and solidarity.</p> <p>Beo Trekwerk bv and Beo Trekwerk Staal bv work with suppliers who comply with labor regulations, directives and legislation in accordance with the global general acceptable standards. Thereby influencing suppliers integrity and ethical behavior.</p> <p>Beo Trekwerk bv and Beo Trekwerk Staal bv use a questionnaire, according to the International Social Accountability standard SA 8000 .
