

Parktheater, Eindhoven

2005+2015

The New Construction of a beautiful auditorium with more than 100 tower winches and lamel floor. In the auditorium area there is a movable bridge. The portal towers have automated extensions as well.

This project was executed by the company Stakebrand, which Trekwerk has taken over in the year 2009.

In 2015, Trekwerk was awarded with the exchange of the former control system by a TNM Control System

Implemented Products
